

AI SHOHRA

Hand Rolls Description

Thickness	12mu, 15mu, 17mu, 20mu, 23mu, 30mu
Lengths	100m – 300m
Widths	300mm, 400mm, 450mm, 500mm
Core Type	Standard, Extended
Core Weights	150g – 800g
Colour	Clear, Black, White, Blue, Green
High Performance Grade*	Available for 12mu, 15mu, 17mu

*High Performance Grade: Provides savings to the consumer by having a stronger but lighter film. It is made using blends of higher grade Polyethylene: Octene (C8)

Because consumers come in different shapes and sizes, our stretch film production accommodates any bespoke enquiries. If you would like to design your own unique specifications to match the requirements of your customers please get in touch!

Subject to following ASTM tests:

- Tear Resistance
- Elongation limits
- Peel cling
- Puncture Resistance

For any questions please get in touch!
