

AI SHOHRA

Machine Rolls Description

Thickness	17mu, 20mu, 23mu, 30mu
Width	500mm
Lengths	1500m- 2000m
Elongation	150%, 200%, 250%, 300%
Core Weight	1.2kg
High Performance Grade*	Available

*High Performance Grade: Provides savings to the consumer by having a stronger but lighter film. It is made using blends of higher grade Polyethylene: Octene (C8)

Because consumers come in different shapes and sizes, our stretch film production accommodates any bespoke enquiries. If you would like to design your own unique specifications to match the requirements of your customers please get in touch!

Subject to following ASTM tests:

- Tear Resistance
- Elongation limits
- Peel cling
- Puncture Resistance

For any questions please get in touch!
